

Purchasing Program Offerings

Avendra

Purchasing Programs: Magnify Your Purchasing Power

Avendra's purchasing programs provide access to a \$3 billion supply chain of goods and services. Our contracting experts focus on the entire supply chain, going beyond the distributor to negotiate attractive pricing with manufacturers and even raw material suppliers.

Leverage Our Procurement Scale.

Over 900 suppliers make up our purchasing programs and provide a wide range of products and services. These suppliers represent a broad spectrum of quality tiers (good, better, best) to meet your various needs. Additionally, suppliers and their products and services are reviewed and monitored by our Avendra quality assurance experts. With Avendra your advantages include: quality products, superior service levels, direct contact with the supplier (you select the products you need, you place the orders), and great prices on everything you buy.

Food & Beverage

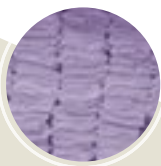

- Master/broadline distribution for thousands of brand-name food and beverage items – from gourmet products to basic commodities – and everything in between!
