

UNRIVALED INNOVATION. UNMATCHED EXECUTION.

LORRAINE COMFORT SLEEPER

For more than 25 years, American Leather® has expertly blended refined design, meticulous craftsmanship and operational excellence to offer beautiful and durable furniture. Providing a wide range of products for lobbies, bars and suites, including the company's signature Comfort Sleeper®, American Leather has earned the trust of the top vacation resorts and other hospitality environments around the world.

Leading vacation resorts trust American Leather's ability to execute. With engineering prowess and a proven 10-day product development cycle, our flexibility and foresight allow us to meet even the most specific needs of hospitality and contract customers.

Since 2000, the Comfort Sleeper by American Leather® has been setting the standard that no other sleeper sofa can surpass. The Comfort Sleeper® is not only a gorgeous piece of furniture, it's the only sleeper sofa with the Tiffany 24/7™ sleep system. This patented mechanism opens and closes almost effortlessly, with solid platforms that provide even support with no bars, no springs and no sagging. With four and five-inch high-density foam mattresses, it's quite simply the best sleeper sofa available.

American Leather realizes that when it comes to sofa beds, one size does not fit all. That's why the Comfort Sleeper® is available in seven sizes, including the only true king sofa sleeper that is 80" long and 76" wide, and the double cot sleeper, a moderate-sized sofa that effortlessly folds out into two distinct beds. In addition to seven sizes, each Comfort Sleeper® style is available as a stationary sofa, love seat, chair, swivel recliner, ottoman, a double-wide storage ottoman, and many sectional configurations.

Beyond the Comfort Sleeper®, American Leather offers smart and stylish seating and storage solutions for outdoor, lobbies, lounge areas or guest rooms. American Leather also offers a full spectrum of hospitality solutions with the introduction of product lines styled by Lee Industries®.
