

fiberbuilt INTRODUCING ShadeCraft™ BLOSSOM™

Revolutionizing the way you enjoy the outdoors

Energy & Connectivity

Solar power

Integrated solar panels generate and store renewable energy for uninterrupted usage and operation even on cloudy days

WiFi & Bluetooth®

Always connected, with on-board WiFi, Bluetooth

App Control

Control via SmartShade App

Audio

Premium audio experience from speaker by Harman/Kardon

Controlled lighting

Beautiful embedded LED panels. Control brightness, turn ON and OFF and schedule timed events

Sensors

Wind sensor

Highly accurate wind speed and direction data so that umbrella can autonomously close in inclement weather

Proximity sensor

Recognizes obstacles around itself and will not open if it feels it will be obstructed by an object or a person.

Environmental sensors

Equipped with a powerful array of sensors - like temperature, humidity, UV radiation, air quality, and others, to provide real-time microclimate data through the SmartShade application

Device Charging

Integrated USB port to charge your devices
