

## **Avendra's Corporate Social Responsibility Vision Statement**

We at Avendra seek to achieve our business objectives while acting as a good corporate citizen. We endeavor to consider the future implication of our actions on all stakeholders: from our customers and suppliers to our associates, local and global communities, and the environment. We strive to operate and do business in a manner that balances economic, social and environmental needs and limitations. We strive to support our customer's corporate responsibility goals and encourage our suppliers to innovate as we all move forward on a shared journey towards corporate social responsibility and sustainability.

## **Avendra's Guiding Principles of Corporate Social Responsibility**

Avendra's approach to CSR is rooted in three pillars that guide our internal and external interactions:

### Principled and Powerful Sourcing

Integrity is at the forefront of our approach to business. With integrity as a foundation, we seek to balance the environmental, social and economic needs and limitations within the supply chains we manage for our customers.

### Bettering Ourselves and Our Communities

Beyond improving the supply chains that are core to our business, we emphasize these areas: supporting our associates' health and wellbeing, getting involved in our local communities, and ensuring that our own internal operations are environmentally and socially responsible.

### Taking Risks and Inspiring Change

Avendra has a unique position in the hospitality procurement market. Leveraging that position to bring various stakeholders together and creating a space for creative collaboration is a priority for Avendra as we think about the future for our people and planet.
